About Us

OUR PROJECT

Iside Mundi is a new brand built on the experience of a team of Italian tourism professionals with over 10 years of experience. The new name represents the evolution of the project, bringing together under one brand the expertise, knowledge and partnerships developed over the years.
The team includes tour operators, marketing and logistics specialists, university-trained guides in art, history, archaeology and languages, experienced drivers and trusted local partners, all with in-depth knowledge of the destinations they operate in.
The project focuses on creating personalised travel experiences, rather than standardised tours. Every journey is tailored to each traveller's interests, needs and schedule, with careful attention to every detail — from guides and transportation to logistics and local recommendations.

The goal is to help travellers discover an authentic Italy, going beyond the famous landmarks to explore local traditions, flavours, hidden details and genuine experiences that make a journey truly memorable.
The name is new, but the experience is not. Iside Mundi brings more than ten years of expertise together to offer a more personal, authentic and effortless way to discover Italy.

WHY ISIDE MUNDI

Iside Mundi is built around the idea that an authentic journey is not simply about travelling far, but about going beyond—discovering different cultures, people, landscapes and stories, and allowing them to transform you.
The name is inspired by Isis, the ancient Egyptian goddess who travelled across the Mediterranean, adapting to different cultures while preserving her essence. She was also a protector of travellers and sailors and, in the myth of Osiris, undertook a journey to reunite what had been scattered.

This reflects the philosophy of Iside Mundi: travel brings together fragments—encounters, flavours, landscapes, art and stories—and transforms them into meaningful, lasting experiences.

Beyond the Wonder
For Iside Mundi, wonder is only the beginning. The aim is to go beyond what is simply beautiful or extraordinary by opening doors to authentic places, people and experiences that would otherwise remain undiscovered.
Luxury is therefore not about having more, but about experiencing something unique, authentic and deeply personal.

Iside Mundi — Beyond the Wonder:
not simply showing the world, but making you truly experience it.
